About

I'm a multidisciplinary graphic designer who enjoys creating work across print, digital, and physical formats. I love making designs that people can relate to and feel something from, while also exploring ideas that push boundaries. My work is driven by curiosity, thoughtful concept development, and attention to detail. Outside of design, I enjoy the outdoors, painting, hands-on creative projects, and spending time with friends.

Education

Utah Valley University

Expected Grad Dec 2026
BFA Graphic Design

Graphic Designer

Nov 2025 – Current

Felt Right

Working alongside the lead designer to develop and execute large-scale design projects, redesigning printed materials, creating product instructions, and designing packaging. Photo editing, product rendering, and collaborating directly with partner companies on major brand projects, managing design execution from concept through final delivery.
